1. A ¾" meter and tap will be installed at no additional cost. A 1" meter and tap will cost an additional \$400.00.
 2. The cost for road bore/crossing is \$2,500.00 minimum under ideal conditions. Boring or cutting through rocky terrain will incur additional cost. If the actual cost of the road bore is \$2,501.00 or more, then 10% (10 percent) of the actual cost will be added to the amount due. A cost will be quoted on an individual basis. The maximum distance for installation of a benefit unit from the water main line will be 15' (15 feet). The road bore/crossing is required to be paid in full prior to the meter being installed for water usage. Therefore, the District will invoice for any additional cost of the bore/crossing and payment must be received by the District before the meter will be installed.
 3. Service will be reconnected at no additional cost.
 4. Service reconnected after payment of billing and all fees, and reconnected after normal work hours will be charged an additional \$100.00.
 5. Intentional tampering/destruction to the unit on top of the meter box/tampering or destruction in any way to the meter itself will result in fines and/or prosecution. If the destruction is accidental, the fines may be waived for the first incident at the discretion of the field personnel, office personnel and or Board of Directors.
 6. A reinstallation fee will be charged if the meter is reinstalled within thirty (30) days of the customer's request that the meter be moved. If the meter is reinstalled after 30 days of being removed, there will be no charge for the installation.
 7. Minimum charge is for 1,000 gallons (\$75.00 regardless of the actual number of gallons).
 8. If customer requests a copy of their original billing, the cost for such printing of the original billing will be \$1.00
 9. Law Permit/Raw Water hauled (agriculture only) is limited to 2,000 gallons maximum per load.
- NOTICE:** Effective 2/4/2003 the Board of Trustees for the Town of Mounds voted to create an inspection fee for the inspection of a sewer tap. Please contact City Hall for more information. 918-827-6711.
